

# DDC3 High Resolution Print Option

*The new standard in  
dot matrix laser coding*

***The Difference  
is Domino***

# Why our DDC3 HR Print Option is different

For the first time, you can put attractive, indelible codes on your products at the speeds you need. Superior quality codes of this kind have only been achieved in the past by compromising production line speeds. Now, the DDC3 High Resolution print option uses exclusive Domino technology to offer the combination of a high speed dot matrix laser marker with the high resolution, high quality codes that you have always wanted.

- ◆ High Resolution option provides near letter quality, easy to read codes.
- ◆ Fonts are designed to complement any packaging.
- ◆ Consistent, quality marks can be achieved at production line speeds, with no speed reduction for twin-line coding.
- ◆ Ideal for the food, drink, confectionery, cosmetic and pharmaceutical industries.
- ◆ Available as an option with Domino's exclusive dual head system for ultimate production and installation flexibility.
- ◆ Character sizes from 1.5mm to 5.8mm (0.06" to 0.23")

*Designed for your industry...*

For high resolution, high quality codes on:-

- ◆ PET
- ◆ Cartons
- ◆ Paper
- ◆ Plastic labels
- ◆ Flow wrap materials

*Take a closer look...*

*High quality codes... even at high speeds*
